# ABOUT UNITED FINANCE

United Finance was established with a simple idea:  
**financial markets should be powered by technology,  
intelligence, and accessibility.**

Global markets operate around the clock and generate enormous amounts of market data every second. Traditional approaches to trading can make it difficult for individuals to analyze opportunities, manage positions, and react efficiently to changing market conditions.

United Finance aims to bridge this gap through a technology-driven ecosystem combining:

Forex Market  
Access and Analysis

Cryptocurrency  
Market Analysis

Trading  
Technology

Automated  
Trading Solutions

AI-Assisted  
Market Intelligence

Risk-Management  
Tools

Data-Driven Decision Support

We are building United Finance as a **technology-first financial platform**, with innovation and responsible market participation at the center of our development.

# OUR CORE MARKETS

United Finance focuses on two of the world's most dynamic financial markets:

These markets operate differently, but both are influenced by global economic developments, market sentiment, liquidity, technology, and changing supply and demand.

United Finance combines market research and technology to help users better understand these complex environments.

# FOREX TRADING

Connecting to the World's Currency Markets

Forex, short for **Foreign Exchange**, is the global marketplace for buying and selling currencies.

Currency pairs such as EUR/USD, GBP/USD, USD/JPY and other major, minor, and cross pairs reflect the relative value of one currency against another.

Forex markets are influenced by numerous factors, including:

Interest-rate  
decisions

Inflation

Employment  
data

Central-bank  
policies

Economic  
growth

Geopolitical  
developments

Market  
sentiment

Global

# CRYPTO TRADING

Exploring the Digital Asset Economy

Cryptocurrency has introduced a new generation of digital financial assets built on blockchain technology.

Unlike traditional markets, cryptocurrency markets operate continuously and can experience significant changes in price, liquidity, and market sentiment.

United Finance focuses on the technology and market opportunities surrounding digital assets while recognizing the unique risks associated with crypto markets.

Our approach is centered on combining **data, technology, and disciplined decision-making** rather than relying on emotion or speculation.

## OUR CRYPTO FOCUS

-  Cryptocurrency market analysis
-  Digital-asset research
-  Market trend identification
-  Trading technology
-  Portfolio and risk-management concepts
-  Blockchain-focused innovation
-  Automated trading development

# AI & BOT TRADING

The Next Generation of Trading Technology

United Finance is developing an **AI-assisted and automated trading ecosystem** designed to help transform the way market strategies are analyzed and executed.

Our upcoming BOT trading technology is intended to use predefined trading logic, market data, technical indicators, and algorithmic processes to identify and respond to market conditions.

## POTENTIAL CAPABILITIES

### Automated Market Analysis

Processes market information and identifies predefined trading conditions.

### Strategy-Based Execution

Designed to execute rules-based strategies according to predetermined parameters.

### 24/7 Market Monitoring

Particularly relevant to cryptocurrency markets, which operate continuously.

### Risk Controls

Designed with configurable parameters for exposure, position sizing, and trading limits.

### Data-Driven Decisions

Reduces dependence on emotional decision-making by following predefined rules.

### Performance Analytics

Provides information that can help users evaluate strategy behavior and historical performance.

# OUR MAIN FEATURES

Technology Designed Around Modern Markets

01

## Multi-Market Ecosystem

Forex and cryptocurrency markets brought together within one technology-focused ecosystem.

02

## Advanced Market Intelligence

Tools designed to help users interpret market movements and relevant data.

03

## Automated Trading Technology

Upcoming BOT solutions designed around systematic trading strategies.

04

## Risk Management

Tools and controls designed to help users understand and manage market exposure.

05

## Data-Driven Approach

Using market information and analytics rather than relying exclusively on emotions or intuition.

06

## User-Focused Experience

A clean and accessible platform designed for both new and experienced market participants.

07

## Continuous Innovation

Continuous development of new technologies, analytical tools, and trading solutions.

08

## Transparency

Clear information about products, technology, trading risks, and applicable terms.

## OUR MISSION

— Making Financial Technology More Accessible

Our mission is to build innovative financial technology that helps people better understand and interact with global markets.

We aim to combine:

to create a modern trading ecosystem built for the future of finance.

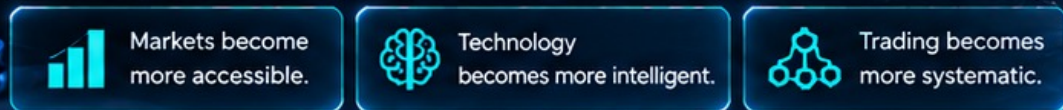

## OUR VISION

— Building the Future of Intelligent Trading

Our vision is to become a globally recognized financial technology brand at the intersection of Forex, cryptocurrency, artificial intelligence, and automated trading.

We envision a future where advanced trading technology is easier to access, understand, and use responsibly.

United Finance is building toward an ecosystem where:

# OUR VALUES

Principles for a Stronger Financial Future

## INNOVATION

We continuously explore new technologies and better ways to interact with financial markets.

## TRANSPARENCY

We believe users should have clear information about our technology, services, limitations, and risks.

## DISCIPLINE

Successful market participation requires structured processes and disciplined risk management.

## TECHNOLOGY

We believe technology can improve how financial information is analyzed and trading strategies are implemented.

## RESPONSIBILITY

We recognize that financial markets involve risk and promote informed and responsible participation.

## LONG-TERM THINKING

We focus on building sustainable technology rather than chasing short-term trends.

# OUR ROADMAP

Building Step by Step

A GLOBAL  
FINANCIAL  
FUTURE

01

## PHASE 01

### Financial Market Ecosystem

Development of the United Finance platform and core market infrastructure.

02

## PHASE 02

### Forex & Crypto Intelligence

Expansion of market analysis, research, monitoring, and analytical tools.

03

## PHASE 03

### Automated Trading

Introduction and development of rules-based BOT trading technology.

04

## PHASE 04

### AI-Assisted Trading

Development of advanced AI-assisted market analysis and decision-support technologies.

05

## PHASE 05

### Global Expansion

Expanding technology, partnerships, products, and market capabilities across international markets where legally permitted.
